Observation: 18 variables instead of 5
Observation: 18 variables, scaled
no results yet
(0 of 80 runs)
Budget handling: reject instead of mask
Budget handling: cut to the remaining budget
Budget handling: reject with penalty
Reward: yield at the end only
Actions: doses up to 89 mm
no results yet
(0 of 40 runs)
Actions: daily decisions
no results yet
(0 of 40 runs)
Actions: larger doses and daily
no results yet
(0 of 40 runs)
Information: perfect 7-day forecast
no results yet
(0 of 80 runs)
Information: trained on the test year itself
no results yet
(0 of 320 runs)
Robustness: 5 % observation noise
no results yet
(0 of 800 runs)
Robustness: 10 % observation noise
no results yet
(0 of 800 runs)
Robustness: 20 % observation noise
no results yet
(0 of 800 runs)
Training: 300,000 steps instead of convergence
